

AI HR Assistant for Microsoft Teams

Smarter HR support. Happier employees. Higher productivity.

Microsoft Copilot

AI for a more productive world

1 Problem

- Manual timesheets
- Delayed approvals
- HR query burnout

Employees struggle with outdated processes and slow responses, while HR teams are overwhelmed with repetitive questions.

2 Customer Segments

- HR Leaders
- Line Managers
- Frontline Workers

From policy owners to everyday employees — everyone gets the right support, at the right time.

3 Unique Value Proposition

**Natural language
policy Q&A + automated
ticket lifecycle in Teams**

Instant, accurate HR answers and automated workflows — right where your people work.

4 Solution

- Multi-tenant AI agent with pluggable HRIS/ERP connectors

- ✓ Natural language understanding
- ✓ Automates ticket lifecycle
- ✓ Integrates with your HR systems

5 Channels

**Microsoft 365 Copilot
Agent Store & Azure Marketplace**

Discover, deploy and scale across your organization and ecosystem.

6 Revenue Streams

- Per-seat monthly subscription tiers

Flexible pricing for teams of all sizes, with enterprise-grade features and support.

7 Cost Structure

- Azure OpenAI tokens (LLM inference)
- App Service (compute & hosting)
- Cosmos DB (data storage)

Efficient, scalable, and optimized for enterprise use.

8 Key Metrics

- Resolution time (avg. first response)
- 48h SLA compliance
- Query deflection rate

Faster answers. Fewer tickets.
Measurable impact.

9 Unfair Advantage

- Turnkey Teams integration
- Verified audit trails
- Strict privacy guardrails

Built for enterprise security, compliance and trust — out of the box.
